- the options granted to corporate officers and executives, members of the executive committee will be subject to performance conditions (i.e. 1/3 if the Company reaches a certain level of cash position, 1/3 if clinical and/or regulatory target is met and 1/3 if manufacturing target is met), taking into account, if applicable, any policy adopted by the Board of Directors in this regard in accordance with applicable regulations, including, in particular, the rules adopted by Nasdaq in the United States relating to the granting of supplementary compensation and incentive instruments to executives on the basis of erroneous financial statements ("clawback policies"),

**resolves** that this authorization includes, in favor of the beneficiaries of the subscription options, an express waiver by the shareholders of their preferential subscription right to the shares that will be issued as and when the subscription options are exercised, and will be implemented under the conditions and in accordance with the procedures provided for by the law and regulations in force on the day of the granting of the purchase or subscription options, as applicable,

**resolves** that the purchase or subscription price per share shall be set by the Board of Directors on the day the option is granted in accordance with the provisions of Article L. 225-177 of the French Commercial Code and shall be at least equal to the highest closing price of a share of the Company on Euronext Growth Paris and on Nasdaq or any other market on which the Company's shares are traded (including, as the case may be, in the form of American Depositary Shares) prior to the date of the decision of the Board of Directors to grant the options, without in any event being less than ninety-five percent (95%) of the average quoted price of a share of the Company on Euronext Growth Paris and on Nasdaq or any other market on which the shares of the Company would then be listed (including, if applicable, in the form of American Depositary Shares) during the twenty (20) stock market sessions preceding the date of the Board of Directors' decision to grant the options, it being specified that when an option allows its beneficiary to purchase shares that have already been purchased by the Company, its exercise price, without prejudice to the foregoing clauses and in accordance with the applicable legal provisions, may not be less than 80% of the average price paid by the Company for all of the shares that it has previously purchased,

**resolves** that the price set for the subscription or purchase of the shares to which the options give the right may not be modified during the term of the options, it being specified however that if the Company were to carry out one of the transactions referred to in Article L. 225-181 of the French Commercial Code, it would have to take the necessary measures to protect the interests of the option beneficiaries under the conditions set out in Article L. 228-99 of the French Commercial Code,

**resolves** that in the event of the issuance of new equity securities or new securities giving access to the capital as well as in the event of a merger or demerger of the Company, the Board of Directors may suspend the exercise of the Options, if applicable,

**sets** the period of validity of the options at ten (10) years from the date of grant, it being specified, however, that this period may be reduced by the Board of Directors for beneficiaries resident in a given country to the extent necessary to comply with the law of that country,

**grants** full powers to the Board of Directors within the above limits to:

- determine the identity of the beneficiaries of the stock options and the number of options to be granted to each of them,

- charge, if it deems necessary, the costs of the capital increases against the amount of the premiums relating to these increases and deduct from this amount the sums necessary to bring the legal reserve to one tenth of the new capital after each increase,
- amend the Bylaws accordingly and in general do all that is necessary.

**specifies** that the Board of Directors may, within the limits it has previously set, sub-delegate the powers granted to it under this resolution in accordance with the applicable legal and regulatory provisions,

### Twenty-seventh resolution

having reviewed the report of the Board of Directors and the Statutory Auditors' report,

in accordance with the provisions of Article L. 225-197-1 et seq of the French Commercial Code,

**authorizes** the Board of Directors to make one or more free allocations of existing shares or shares to be issued by the Company to employees of the Company, or certain categories of employees, and/or to its corporate officers who meet the conditions set out in Article L. 225-197-1, II of the French Commercial Code, as well as to the benefit of the employees of companies or economic interest groups in which the Company holds, directly or indirectly, at least 10% of the capital or voting rights on the date of allocation of the shares concerned,

**specifies** that, should the Company's shares be admitted to trading on the regulated market of Euronext in Paris, the Board of Directors must comply with the provisions of Article L. 225-197-6 of the French

Commercial Code in order to be able to grant free shares to corporate officers who meet the conditions set out in Article L. 225-197-1, II of the French Commercial Code,

**resolves** to set at 6,307,288 shares with a unit nominal value of 0.05 euro the total number of shares that may be allocated free of charge by the Board of Directors by virtue of this authorization, it being specified that (i) the total number of shares allocated free of charge by the Board of Directors may never exceed the overall limit of the Company's existing share capital on the date of the decision to allocate them provided for in article L. 225-197-1 of the French Commercial Code, (ii) this number will be counted against the overall ceiling provided for in the Twenty-eighth resolution below, and (iii) the shares that may be granted to corporate officers and senior managers, members of the executive committee of the Company, must be subject to performance conditions (i.e. 1/3 if the Company reaches a certain level of cash position, 1/3 if clinical and/or regulatory target is met and 1/3 if manufacturing target is met), taking into account, if applicable, any policy adopted by the Board of Directors in this regard in accordance with applicable regulations, including, in particular, the rules adopted by Nasdaq in the United States relating to the granting of supplementary compensation and incentive instruments to executives on the basis of erroneous financial statements ("clawback policies"),

**resolves** that the allocation of the shares to their beneficiaries shall be definitive, subject to the fulfilment of any conditions or criteria set by the Board of Directors, at the end of a period of at least three (3) years (the "Vesting Period") and that the beneficiaries of these shares shall, where applicable, retain them for a period set by the Board (the "Retention Period") which, together with the Vesting Period, may not be less than three (3) years, it being specified that the Board of Directors shall have the right to provide, if applicable, in the event of a change of control of the Company, for an acceleration of the Vesting Period and the Retention Period, in whole or in part, without the latter being less than one (1) year and the Retention Period combined with that of the Vesting Period being less than two (2) years,

**resolves** that the duration of the Vesting Period and the Retention Period shall be set by the Board of Directors within the above-mentioned limits,

**notes** that, in accordance with the provisions of Article L. 225-197-1 of the French Commercial Code, when the allocation concerns shares to be issued, this authorization automatically entails in favor of the beneficiaries of the shares allocated free of charge the waiver by the partners of their preferential subscription right to the new shares issued, the corresponding capital increase being definitively completed by the sole fact of the definitive allocation of the shares to the beneficiaries,

**notes** that this decision entails, insofar as necessary, the waiver by the partners in favor of the beneficiaries of free shares of the part of the reserves, profits or premiums which, if applicable, will be used in the event of the issue of new shares at the end of the Vesting Period, for the realization of which all powers are delegated to the Board of Directors,

**resolves** that the Board of Directors will inform the General Meeting each year of the transactions carried out under this resolution, in accordance with the provisions of Article L. 225-4 of the French Commercial Code.

**sets** the period of validity of this delegation at twelve (12) months as from today,

Shareholders may sell all or part of their shares at any time, however if the sale (transfer of ownership) is completed

**The Board of Directors**

## OVERVIEW

### YEAR ENDING DECEMBER 31<sup>st</sup> 2023

Collectis S.A. (or “Collectis”, the “Company” or “we”) is incorporated as a *société anonyme*, or S.A., under the laws of the French Republic. Our principal executive offices are located at Paris.

Our UCART product candidates, based on gene-edited T-cells that express chimeric antigen receptors, or CARs, seek to harness the power of the immune system to target and eradicate cancer cells. We believe that CAR-based immunotherapy is one of the most promising areas of cancer research, representing a new paradigm for cancer treatment. We are designing next-generation immunotherapies that are based on gene-edited CAR T-cells. Our gene-editing technologies allow us to create allogeneic CAR T-cells, meaning they are derived from healthy donors rather than the patients themselves. We believe that the production of allogeneic CAR T-cells will allow us to develop cost-effective, “off-the-shelf” products that are capable of being stored and distributed worldwide. Our gene-editing expertise also enables us to develop product candidates that feature certain safety and efficacy attributes, including control properties designed to prevent them from attacking healthy tissues, to enable them to tolerate standard oncology treatments, and to equip them to resist mechanisms that inhibit immune-system activity. Together with our focus on immuno-oncology, we are using, through our .HEAL platform, our gene-editing technologies to develop HSPC product candidates for genetic diseases. .HEAL is a new gene-editing platform developed by Collectis that leverages the power of TALEN technology to allow highly efficient gene inactivation, insertion and correction in hematopoietic stem and progenitor cells.

The Company's consolidated financial statements for the year ended December 31, 2023, include Collectis and its two US-based subsidiaries, Collectis, Inc. and Collectis Biologics, Inc. (the “Group”). Details of these consolidated financial data are provided in the financial results for the twelve months ended December 31, 2023. Following the signing of the reverse merger agreement between Cibus Global LLC and Calyxt, Inc. January 17, 2023 (the “Merger”), Collectis considers that Calyxt meets the definition of a group of assets held for sale as at December 31, 2022. Consequently, Calyxt has been classified as a discontinued operation until May 31, 2023. Upon completion of the Merger, effective June 1, 2023, the combined company will operate under the name Cibus, Inc. (referred to as “Cibus”). Collectis' shareholding in Calyxt was reduced to 2.9% following completion of the Merger, resulting in Collectis losing control of Calyxt. Calyxt has therefore no longer been consolidated since June 1, 2023.

As of December 31, 2023, Collectis S.A. owns 100% of Collectis, Inc. which owns 100% of Collectis Biologics, Inc.

The Company does not have any branches.

## Group activity over the year ended December 31, 2023

### **UCART Clinical Programs**

#### **BALLI-01 (evaluating UCART22) in relapsed or refractory B-cell acute lymphoblastic leukemia (r/r B-ALL)**

On April 11, 2023, Cellectis announced that a patient was dosed in France with its first in-house manufactured product candidate UCART22 and completed the 28-day dose limiting toxicity (DLT) period.

On June 8, 2023, at the European Hematology Association (EHA) Cellectis presented updated clinical and translational data supporting the preliminary safety and efficacy profile of UCART22 in a heavily pretreated r/r B-ALL population.

On December 11, 2023, Cellectis presented a poster at the American Society of Hematology (ASH) Annual Meeting with updated results of the Phase I BALLI-01 trial. The poster presentation highlights the following data:

- In vitro comparability studies suggested that the new process used by Cellectis to manufacture in-house UCART22 ("UCART22 P2") resulted in a more potent product than the process used by the external CDMO to manufacture UCART22 ("UCART22 P1").
- As of July 1st, 2023, 3 patients were enrolled into the first UCART22 P2 cohort at dose level 2 (1 million cells/kg). UCART22 P2 was administered after fludarabine, cyclophosphamide, and alemtuzumab (FCA) lymphodepletion and was well tolerated. No DLTs or ICANS were observed, and the CRS observed was Grade 1 or 2.
- There was a higher preliminary response rate (67%) at dose level 2 for UCART22 P2 compared to a 50% response rate with a dose 5 times higher of UCART22 P1 (dose level 3).
- UCART22 expansion was observed in the responding patients and correlated with response and increases in serum cytokines and inflammatory markers.

The study continues to enroll patients with UCART22 P2.

#### **NATHALI-01 (evaluating UCART20X22) in relapsed or refractory B-cell non-Hodking lymphoma (NHL)**

In December 9, 2023, Cellectis presented a poster at the ASH Annual Meeting with the initial first-in-human preliminary results from the NatHaLi-01 trial, a Phase 1/2a dose-finding and expansion study evaluating UCART20x22 in r/r B-cell NHL. The poster presentation highlights the following data:

- As of July 1st, 2023, 3 patients were enrolled and treated at dose level 1 (50 million cells flat dose). Cytokine release syndrome (CRS) Grade 1 or 2 occurred in all patients, and all CRS resolved with treatment.
- No immune effector cell associated neurotoxicity (ICANS) or graft versus host disease (GvHD) was observed. There were no UCART20x22 DLTs, and there was 1 DLT related to CLLS52 (alemtuzumab).
- All patients responded at Day 28, with 1 partial metabolic response and 2 complete metabolic responses in patients who had failed prior autologous CD19 CAR T-cell therapies.
- UCART20x22 expansion correlated with response and increases in serum cytokine and inflammatory marker levels as well as with CRS.

The study continues to enroll patients with UCART20x22.

### ***AMELI-01 (evaluating UCART123) in relapsed or refractory acute myeloid leukemia (r/r AML)***

On May 17, 2023, Cellectis presented an oral presentation at the American Society of Gene and Cell Therapy (ASGCT) 2023 Annual Meeting that was an encore of the clinical data on the AMELI-01 clinical trial that were unveiled at an oral presentation at the ASH 2022 Annual Meeting. These preliminary data supported the continued administration of UCART123 after FCA lymphodepletion in patients with r/r AML. The study continues to enroll patients.

The study continues to enroll patients with UCART123.

### ***MELANI-01 (evaluating UCARTCS1) in relapsed or refractory multiple myeloma (r/r MM)***

In April 2023, we announced our decision to stop enrollment and treatment of patients with UCARTCS1 under the MELANI-01 Study.

### ***CLLS52 (alemtuzumab) as anti-CD52 monoclonal antibody***

Following the execution of the supply agreement we entered into with Genzyme relating to the supply of alemtuzumab, we are implementing the use of alemtuzumab as a Cellectis investigational medicinal product, coded as CLLS52, in the clinical protocols AMELI-01, BALLI-01, and NaThaLi-01 in the United States and in the relevant European Union member states.

## ***R&D activities***

### ***TALEN®-edited MUC1 CAR T-cells***

On April 17, 2023, Cellectis released preclinical data on TALEN®-edited MUC1 CAR T-cells at the American Association for Cancer Research (AACR) Annual Meeting. The preclinical data presented in a poster showed the capability of armored allogeneic MUC1 CAR T-cells to excel in the immune suppressive tumor micro-environment suggesting that they could be an effective option in treating relapsed and refractory triple negative breast cancer (TNBC) patients with limited therapeutic options.

On October 31, 2023, Cellectis presented preclinical data on MUC1-CAR T-cells to overcome key challenges of targeting solid tumors in a poster session at the Society for Immunotherapy of Cancer's 38th Annual Meeting (SITC). The preclinical data presented highlight the capability of multi-armored allogeneic CAR T-cells to preserve their activity despite the immunosuppressive microenvironment, while mitigating potential safety concerns.

### ***Multiplex engineering for superior generation of efficient CAR T-cells***

On May 17, 2023, Cellectis presented preclinical data in a poster on multiplex engineering for superior generation of CAR T-cells, at the ASGCT Annual Meeting. In the presentation, Cellectis shows that we can use the state-of-the-art TALEN® technology to precisely edit up to four loci simultaneously while delivering several additional payloads to increase the efficacy and persistence of CAR T-cells.

### ***HBB gene correction of sickle cell mutation***

On June 5, 2023, preclinical data on gene editing process using Cellectis TALEN® technology to develop highly efficient HBB gene correction of sickle cell mutation, were presented in a poster at the International Society for Cell and Gene Therapy (ISCT) 2023 Annual Meeting. These results showed that non-viral DNA delivery associated with TALEN® gene editing reduces the toxicity usually observed with viral DNA delivery and allows high levels of HBB gene correction in long-term repopulating hematopoietic stem cells.

### **TALEN-mediated HBB gene correction strategy**

On October 24, 2023, Cellectis presented preclinical data on its program of gene therapy for HSPC at the European Society of Gene and Cell Therapy (ESGCT) 30th annual congress:

- Intronic editing enables lineage specific expression of therapeutics relevant for HSPC gene therapy.
- TALEN®-mediated intron editing of the CD11b locus results in the lineage-specific expression of a reporter transgene in myeloid cells, with negligible expression in HSPC or other cellular subsets in vitro and in vivo.
- Cellectis believes this intron editing approach could be disruptive in HSPC gene therapy and brain delivery of multiple therapeutics.

### **TALE Base Editors (TALE-BE)**

On June 5, 2023, a comprehensive analysis to better design efficient TALE Base Editors (TALE-BE) using Cellectis' TALEN® technology was presented in a poster at ISCT 2023 Annual Meeting. Cellectis developed a strategy that allowed to comprehensively characterize editing efficiencies in function of the TC position within the TALE-BE editing windows. This method is specifically taking advantage of the highly precise and efficient TALEN® mediated ssODN knock-in in primary T cells, allowing to focus on how target composition and spacer variations can affect TALE-BE activity/efficiency.

On October 25, 2023, Cellectis presented a comprehensive analysis of TALE-BE editing determinants at the European Society of Gene and Cell Therapy (ESGCT) 30th annual congress. Cellectis believes that the knowledge presented will help ensure that genome editing-based strategies are skillfully designed to minimize the risk of potential genotoxic events, overall expanding the potential of TALE-BE for nuclear and mitochondrial therapeutic cell engineering.

### **Licensed Allogeneic CAR T-cell Development Programs**

Allogene's AlloCAR T™ oncology programs utilize Cellectis technologies. ALLO-501 and cema-cel are anti-CD19 products being developed under a collaboration agreement between Servier and Allogene based on an exclusive license granted by Cellectis to Servier. ### **ALLO-501 and cema-cel (ALLO-501A), for diffuse large-cell lymphoma (DLBCL) and chronic lymphocytic leukemia (CLL)**

In January 2024, Allogene announced that it would focus the development of cema-cel (ALLO-501A) as part of a first-line treatment plan for newly diagnosed and treated DLBCL patients who are likely to relapse and require additional therapy. Allogene has announced that it will deprioritize the ALPHA 3rd-line update study and the EXPAND study. In addition, Allogene has announced a new cohort in the ALPHA2 phase 1 study, comprising twelve CLL patients treated with the investigational product cema-cel.

### **ALLO-316 for clear cell renal cell carcinoma (RCC)**

### **Collaboration Agreement with AstraZeneca Ireland**

On November 1, 2023, we entered into a research collaboration agreement (the "Collaboration Agreement") with AstraZeneca Ireland Limited ("AZ Ireland").

Under the Collaboration Agreement, we and AZ Ireland will collaborate to develop up to ten new cell therapy or gene therapy product candidates, to be selected by AZ Ireland from a broad portfolio of targets, for human therapeutic, prophylactic, palliative and analgesic purposes. Collectis grants an exclusive option to license each of these product candidates. In addition to a \$25 million upfront payment, AZ Ireland will reimburse budgeted research costs specific to each of the product candidates defined in the Collaboration Agreement. Collectis is also eligible to receive a payment related to the exercise of the option, payments related to the achievement of certain development, regulatory and sales milestones, which payments may range from \$70 million to \$220 million for each product candidate. Collectis is also eligible to receive financial royalties from AZ Ireland at a variable rate ranging from single-digit (mid-range) to double-digit (low-range) based on annual net sales of marketed products.

### **Initial Investment Agreement with AZ Holdings**

Concurrently with the signing of the Collaboration Agreement, AstraZeneca Holdings B.V. ("AZ Holdings") made an initial investment of \$80 million by subscribing for 16,000,000 ordinary shares at a price of \$5 per share (the "Initial Investment"). Following the Initial Investment, AZ Holdings held approximately 22% of the Company's capital and 21% of its voting rights. Subject to certain customary conditions, AZ Holdings will be entitled to participate pro rata in future offerings of shares or other equity securities of Collectis.

### **Subsequent Investment Agreement**

In addition to the AZ JRCA and the Initial Investment Agreement, on November 7, 2023, the Company and AZ Holdings entered into the Subsequent Investment Agreement. Under the Subsequent Investment Agreement, AZ Holdings would make a further equity investment in Collectis of \$140 million by subscribing for two newly created classes of convertible preferred shares of Collectis: 10,000,000 "class A" convertible preferred shares and 18,000,000 "class B" convertible preferred shares, in each case at a price of \$5.00 per share (the "Additional Investment"). Until they convert into ordinary shares, the "class A" convertible preferred shares would have single voting rights and would not carry any double voting right at any moment, and the "class B" would carry no voting rights except on any distribution of dividends or reserves.

Both class of preferred shares would have a liquidation preference (if any liquidation surplus remains after repayment of Collectis' creditors and of par value to all shareholders) and would be convertible into the same number of ordinary shares with the same rights as the outstanding ordinary shares. All the conditions precedents to the closing are met and the closing should occur on the earlier of (i) the third business day following the approval by the Collectis' board of directors of the Company's annual and consolidated account for the financial year ended on December 31, 2023, and (ii) May 7, 2024 or such other date as may be agreed in writing by the parties. Immediately after the closing of the Additional Investment, it is anticipated that AstraZeneca would own approximately 44.0% of the share capital of the Company and 30% of the voting rights of the Company (based on the number of voting rights outstanding as of the date of this Annual Report) and pursuant to the Subsequent Investment Agreement

and the Company's shareholders decision dated December 22, 2023, Mr. Marc Dunoyer and Mr. Tyrell Rivers will, subject to closing of the Additional Investment, serve on the Company's board of directors as members designed by AZ Holdings. Further, certain business decisions are subject to AZ Holdings' approval, including, in particular, winding up any company of the Collectis group, issuing securities senior to or pari passu with the convertible preferred shares or any shares without offering AZ Holdings the option to purchase its pro rata share of such securities (subject to customary exceptions, including issuances under employee equity incentive plans), declaring or paying dividends, prepaying indebtedness before due, and disposing of any material assets concerning gene editing tools or manufacturing facilities and selling, assigning, licensing, encumbering or otherwise disposing of certain material IP rights.

All the conditions precedents to the closing are met.

*Post closing event: On May 6, 2024, the Company announced the completion of the Subsequent Investment.*
